

Metatronic Life & Healing®

Foundation Healing Training

Online

23rd to 24th November &
7th to 8th December 2024

Welcome to this great new invitation to help you clarify, deepen, and understand how to give a Metatronic Healing to help yourself and others.

This invitation goes out to all Metatronic Students who have completed Step 1 & 2 who wish to deepen their understanding of when, what and how to give a Metatronic Healing.

In addition, it is the pre-requisite to becoming a Metatronic Practitioner, allowing you to advertise yourself as a Metatronic Practitioner and to receive fees for your services.

This Training for Metatronic Healers has been evolving since the beginning of Metatronic Life & Healing in 2007. This is at least the 4th evolution of it and no doubt there will be more as Metatron brings new aspects to our attention and as we continually review what and how we offer this.

It will not have escaped your notice, that after taking a Metatronic Step, there is a lot to integrate. Often, we move onto the next Metatronic Step without a full grasp of what it is we have received. In terms of progressing along the Metatronic Life Pathway, this is not an issue as you are receiving the energies and attunements and letting them evolve you. But if you want to give someone a Metatronic Healing, then a deeper and more specific understanding is necessary, and this is especially true if you are presenting yourself professionally as a Metatronic Practitioner.

This Foundation Training for Metatronic Healing ensures you know how to give a Metatronic Healing, what to use and when.

We hope, whether you are a Metatronic Student wishing to deepen your understanding of the Healing Path of Metatronic Life, and or, whether you are a Healing Practitioner of other modalities wanting to add Metatronic Healing to your skill set, we hope you take this great opportunity and say yes.

Overview

This training will comprise of 2 weekends online. The first weekend will cover in depth the tools and sequences of Metatronic Healing and give you chance to practice giving different types of Metatronic Healing based on Steps 1 & 2.

It allows us to bring you the latest developments in Metatronic Healing.

Although it is a more practical course, Metatron works to evolve you as a person and a potential practitioner, and this enables you to represent Metatronic Healing better and to give better and more focused healings for yourself and others.

After this first weekend and before the second weekend, we require you to engage in some practice sessions. You will be required to give at least 5 face to face (in-person) healing sessions using 5 different types of Metatronic Healing. To do this you will need to pre-arrange a number of friends who are willing to receive the sessions and to give you some written feedback which you will share with us.

Following this is the second weekend where we will address any issues arising from these sessions and then give some information on how to set up a more formal practice of Metatronic Healing.

During this second weekend we will want to know who wants to be a formal Metatronic Practitioner and who simply wants to remain at an informal level. In the past, by simply completing the class, you were considered ready to offer Metatronic Healings. Unfortunately, we have realised that this is not enough. So, for this new training, we shall be checking with Metatron in order to validate any student who wants to be a Metatronic Practitioner. If Metatron says yes, then you may go ahead and represent Metatronic Healing in this way. If the answer is “not yet” we will give you indications as to where and what you need to develop and will offer you supervision in order to support you to get there.

As a registered Metatronic Practitioner you will be required to join the Association of Metatronic Practitioners for an annual fee of £50.

As of 2021 there are now additional supervision sessions offered by Metatronic Teachers to those who have completed this training and we are considering additional supervision for those who are professional healers should they need it.

Who can Apply?

Any Metatronic Student who has both a certificate in Step 1 The Foundation and Step 2 Golden Alchemy.

We anticipate the following students will be interested in this training:

- Not all students want to become healers, they just want to be more clear about how to offer Metatronic Healing.
- Then there are students who want to begin to share Metatronic Healing. Some with a few close friends and family and those who are ready to expand the circle further. To do this you need to know how to talk about Metatronic Healing and Metatron, not an easy thing to do!
- If you are at the beginning of your sharing journey, you may not be ready to charge formal fees but perhaps consider a donation towards your further training.
- However, there are students of Metatronic Life & Healing who either are already healers in other modalities and who already have a professional practice and are now ready to bring Metatronic Healing into their professional practice.

Which one are you?

This Metatronic Healing Training meets these different and diverse needs so that when you leave the course, you will be confident to take the step you want to, at the level you wish to take it.

A substantial folder will be given to you with all the relevant information covered during the training, especially practitioners, including examples of pamphlets you may use and notes from previous courses. There is also the Practitioner Attunements and Transmissions to overlight and support your path and the process.

What will be covered in this Foundation Metatronic Healing Training?

Topics include, not necessarily in this order:

- A Metatronic overview of the Pathway and its significance, understanding what makes MH unique and how to use it.
- Clarifying how to make a bridge and become a channel for Metatronic Healing.
- Clarifying and giving a Three Step Protocol.
- How to add healing energies in a healing session.
- Clarification of using Sacred Sequencing and “Chords” in a session.

This means we will be starting at 2.00pm UK time, 3.00pm CET 9.00am US East Coast and 6.00am West Coast USA. Each day will be no more than 8 hours with time for breaks and lunch etc. *(However, if something arises, we will need to stay and go with it.)*

Annual CPD Day: Once this course has been taken and you have signed the Code of Ethics, you are allowed to join the annual CPD Day held in the first week of March each year.

If you have decided and are approved to be, a Metatronic Practitioner, you need to join the Association of Metatronic Practitioners, and you are required to attend annually the CPD Day to requalify you as a Practitioner. The CPD Days, which cost £60 for the day, refresh your commitment and keep you up to date with current developments in Metatronic Healing. We anticipate these will be online for the foreseeable future so all may join in.

If there are any further questions that you need answered, please contact us. As each year passes this course becomes more powerful and enabling. It aids your spiritual evolution and your understanding of Metatronic Healing - we urge you to say Yes!
